Click EY Pupil Premium Report
Click EY Pupil Premium Report to review percentage achieved in each Age Banding and percentage of Steps of Progress. Ensure that you have filtered on the Data Entry page to EY Pupil Premium first. Once filtered return to home tab to request EY Pupil Premium Report.

First established 6 years ago on behalf of Oxfordshire County Council, the tool is now used by several local authorities, many settings, child minders and schools across the Country. The tool can be used to track attainment and progress from Birth to 5 and can be configured to suit individual setting requirements. The tool has received many positive comments from Ofsted inspectors, advisors and settings alike.

'They make good use of a tracking tool which enables them to pick up areas of weakness and learning gaps and plan for children's needs accordingly..' (Ofsted – Ladybirds at Riverside Pre-School)

The use of a computer programme which tracks children's progress allows staff to accurately identify their strengths and areas for development' (Ofsted – Hendred's Pre-school)

I highly recommend the EYTT as an effective, easy to use tracking tool for the Early Years Foundation Stage. Designed by Oxfordshire EY Advisory Team, EY practitioners and leaders and created by Marczak Assessment Solutions as a tool to assist monitoring progress and attainment of individuals and groups. Settings that have use the EYTT have received positive Ofsted reports as it quickly enables leaders to demonstrate children's progress including those in receipt of EY Pupil Premium. A must for all EY settings and schools!" Michelle Jenkins (EY Lead OCC)

Annual Purchase Subscription

Pre-schools, Nurseries and Childminders

£95+VAT

Schools with attached nurseries (includes YR)

£175+VAT
